

# THE POINTS - HOW IT ALL WORKS!

**The exact point allocation is being kept a closely guarded secret by all of us at Triathlon Victoria. With our recent SAS training, you'll not get it out of us but rest assured that we've been careful to devise a system that enables clubs of any size to win.**

First and foremost, in the best triathlon tradition, every finisher will score for their club so let's make sure we keep out there and cheer everyone home and recreate those finish line feels.

To balance this, points will also be awarded based on how engaged your club is so the greater percentage of members ride the more points the club gets. So let's get everyone we can involved and help all, whatever ability level, to reach that finish line.

Using Zwift Power allows us to be creative and provide bonus points for categories as well as specific challenges. Who will be the "Il Pirata" of the climbs, the "Manx Missile" in the sprints or the "Hercules" of the power challenges. With points at stake at all levels it's truly open to all and everything is to play for. Club glory and eternal bragging rights await the victors!
