

# WHAT YOU NEED TO DO

## TEAM MANAGERS

**To ride in this competition, participants must have a Zwift compatible trainer, Zwift account and the correct software installed on the laptop or device you are using.**

1. Choose a [team kit](#) for all your riders to wear.
1. Make sure your riders are registered on [Zwift Power](#) and your club acronym ([Zwift Power Club Code](#)) is showing correctly.
2. Please use your club's custom made [marketing material](#) on your digital media channels to encourage registrations. The more rides, the higher the chance of your team winning.
3. Decide on tactics for the bunch races, encourage your team, be supportive, and have fun.

**Please note:** The strongest wifi signal possible is required to avoid drop outs. Metal objects can cause wireless Internet disruption, so please take extra steps to ensure that your wireless Internet signal is as strong as possible.
